1Bengaluru, Karnataka 560005

SUMMARY

As an AI/ML passionate for innovation. I've successfully developed and deployed AI-driven solutions that significantly enhance user experience and functionality. I excel in problem-solving, adapting to new technologies, and delivering high-quality, software solutions.

PROFESSIONAL EXPERIENCE

Data Safeguard Inc

Software Developer

Jul 2023 - Jun 2024

EDUCATION

BTech - Computer Science and Engineering

2020 - 2024

REVA University, Bengaluru, Karnataka

PUC

2019 - 2020

St. Joseph's Girls' PU College, Bengaluru, Karnataka

SSLC

2017 - 2018

St. Joseph's Convent Girls' High School, Bengaluru, Karnataka

KEY COMPETENCIES

- AI/ML - Data Exploration, Data Preprocessing, Data Visualization, Machine Learning algorithms.
 - Programming Languages: C, Python, HTML, CSS, JavaScript.
 - Databases: MongoDB, SQL.
 - Frameworks: React JS, Node JS.
 - Soft Skills: Excellent communication and presentation skills, dedicated and responsible, strong problem-solving abilities.
-

PROJECTS

Generative AI Project (Work in Progress)

- Developing a Gen AI solution aimed at enhancing user interaction through advanced language generation techniques.
- Responsible for designing, training, and fine-tuning large language models to meet project requirements.

Expert System for Disease in Cotton Plant Using Task-Oriented Dialogue

- By analyzing weather condition parameters, the rule-based system identifies potential crop diseases.
 - Users input attribute values, which are matched against these rules.
-

ACTIVITIES

- Kaggle Competitions
 - Hackathons
 - Hacker Rank
 - Learning - New Technologies
-

HOBBIES

- Coding
- Glass Painting
- Drawing
- Good in New Crafty Things
