vedaram2002@gmail.com

Bengaluru, India

Education

REVA University (RACE)

M.Tech. in Artificial Intelligence

2025 - 2027

University BDT College of Engineering

B.E in Computer Science and Engineering

2021 - 2025

Skills

Programming Languages

Python, MySQL, HTML, CSS, C, JavaScript

Soft Skills

Teamwork, Time Management, Problem Solving,
Decision Making, Positive Thinking

Tools & Technologies

MS Excel, Power BI, Pandas, NumPy, OpenCV,
Jupyter Notebook, VS Code, PyCharm, MySQL
Workbench, Blender

Certificates

Python 101 for Data Science – IBM

Python and Artificial Intelligence

Data Structures and Algorithms

SQL and Relational Databases 101

About Me

AI and software development enthusiast with experience in Python and AI projects including facial animation, face recognition, and voice recognition systems. Interested in real-world AI applications and intelligent system development.

Work Experience

Python with AI Intern

Feb 2025 – June 2025

PIE Infotech Pvt. Ltd.

Worked on Python programming and AI fundamentals

Implemented real-world applications and basic model integration

Projects

Facial Animation with Motion Capture Based on Surface Blending

Developed a Python–Blender system for realistic facial animation using motion capture data.

Achieved smooth and lifelike facial expressions through surface blending.

Face Detection and Recognition System

Developed a Python-based face detection and recognition system using computer vision techniques.

Implemented real-time face identification for improved accuracy and security applications.

AI Based Voice-Recognition-and-Translation System

Developed real-time speech-to-text for multiple Indian languages with automatic translation.

Applied NLP techniques to enhance transcription and translation accuracy.
